

ADD A [BLANK]

Assignment Week #4

Begin with the "Add An Accent" exercise, where we simply keep on adding an accent to hand-to-hand sixteenth notes using the grid system below. Play four beats (or counts) of each bar before moving on to the next. Each line the accents, or groups of accents, are delayed by one sixteenth note. Of course you can utilise the 4-2-1 method on this exercise as well.

Then try adding "heavy lifting" in place of the accent. This can get tricky very quickly. In the demo I'm playing "Add A Flam", but "Add A Diddle" works nicely as well. "Add A Cheese" is rather more difficult!
